

Aum Amriteshwaryai Namaha!

Title of the Case Study

Name	Roll Number

Group Number:

*Department of Computer Science and Engineering,
Amrita Vishwa Vidyapeetham (Amrita University),
Amritapuri Campus, Kollam*

Guide: Bri Dhivvya

CONTENTS

- **PROBLEM DEFINITION**
- **ROLES AND RESPONSIBILITIES**
- **INTRODUCTION** (say the social relevance of your case study – if exist)
- **LITERATURE REVIEW & RESEARCH GAP**
- **IMPLEMENTATION**(mention what concept was tried – simulator or emulator or in RaPi)
 - **EXPERIMENTAL LABS** (your steps and screenshot in following the tutorial)
- **ABSTRACT**(brief points about your contribution in analyzing/solving the problem in the assigned research paper)
- **CONCLUSIONS & FUTURE WORK**

ROLES AND RESPONSIBILITIES

Sl No.	NAME	Roll Number	Responsibilities taken for this project	Contribution done for this project
1				
2				
3				

LITERATURE REVIEW (Research Paper/Articles)

Sl No .	Title	Authors	Conference/Jou rnal/ Book/ Website, Year of Publication	Team member name who read this paper	Key points taken	Critical Gap observed

Individual Literature review summary – Section of the paper

- Problem addressed in the paper
- Relevance of the paper for your case study
- Key points discussed in the paper [can be presented graphically]
- Limitations of this paper
- Research gap identified by you

Implementation – Experimental setup

- You can either do some network topology design used in the paper in simulator
- You can also do some analysis, if possible in existing machine/deep learning models or statistical inference
- You can also implement certain part of communication between two nodes using socket programming

Abstract

- Make sure that you report your work including the little implementation that your team tried and not the abstract of the given research paper

Conclusion and Future works

- Mention the future scope of this work and each of the team members interest.
